Your Wedding Photography...

There is a lot to consider when choosing your wedding photographer. After all, you have spent months planning your perfect day. I believe your wedding photography should reflect your personality and who you are as a couple.

My style of photography is contemporary, natural and relaxed. I like to work unobtrusively to allow your day to unfold so that I can tell your story in a collection of stunning photographs. I work closely with you in the planning stages to look at your photography in every detail. I can offer you a pre-wedding shoot to help put you at ease so that you are relaxed and comfortable in front of the camera. This is a great opportunity for me to get to know you and what you want from your day and also for you to get to know me a little better.

On your wedding day I want to capture the emotions and precious moments that make your day special. I am a visual storyteller, documenting your wedding day. I love to shoot those natural, un-posed images as well as the

more traditional family groups. Allowing time for some special bride and groom shots. I also like to make time to capture the little details that make your wedding day unique.

Whether I am with you for just an hour or to tell the story of your entire day I want you to enjoy and celebrate your wedding with your family and friends while I create images that you can treasure a lifetime.

I am now based in the Wye Valley between Chepstow and Monmouth. Although most of my weddings are in Gloucestershire, Herefordshire and South Wales, I have a base in Surrey and I travel all over the UK for my weddings.

Here I have included some information about my wedding day photography collections and products that you may wish to consider. Our packages are flexible and tailored to give you what you want for your day.

If you would like to meet me to discuss your day then please get in touch.
